

# Feel Better FRIENDS

HANDMADE DOLLS STUFFED WITH LOVE AND WELL WISHES

Our handmade dolls are created for boys and girls who are facing any major health condition that is either serious in nature or somehow makes the child feel "different" than other kids. Dolls are free of charge.

Each doll is created with the particular needs and characteristics of the child. Your request will be matched with one of our 300

crafters who will lovingly create a doll to bring comfort during stressful doctors appointments and treatment.

See the opposite side of this card for more information about how this project was started and how YOU can help!

To request a doll, please visit our website at [FBFdolls.org](http://FBFdolls.org) or email us at [FBFdolls@gmail.com](mailto:FBFdolls@gmail.com).

**From FBF Founder Shanon:**

The Feel Better Friends project started with a picture of Berkeley holding a doll. Berkeley is a brave little girl in Kansas battling Acute Lymphoblastic Leukemia. I wanted to make her a doll that shared her characteristics including,

Photo credit: Berkeley's Battle at [www.facebook.com/BerkeleysBattle](http://www.facebook.com/BerkeleysBattle)

at the time, a completely bald head, with a little doll wig to match! Since that first doll, the project has grown to over 300 crafters who volunteer their time and talent to make dolls for brave kids around the world.

To request a doll, visit our website at [FBFdolls.org](http://FBFdolls.org) or email us at [FBFdolls@gmail.com](mailto:FBFdolls@gmail.com).

Our website also has details about donating time or crafting supplies to the project.
